

SORATO

CLARITY BETWEEN DESIGN, PRODUCTION AND MARKET

PROJECT CATALOGUE 2025/2026

TECHNICAL PRESENTATION

SORATO - PHILOSOPHY

STRATEGIC ADVISORY

SORATO operates as a strategic advisor at the intersection of design, production, and market intelligence.

Our role is not to execute, replace, or control, but to bring clarity, structure, and direction to complex creative and industrial processes.

We support brands, manufacturers, and developers in making informed decisions - from early concept to production reality.

We believe that strong products are born from:

- a clear vision,
- a deep understanding of materials and fabrication,
- and realistic production frameworks.

SORATO acts as a bridge between creativity and feasibility.

We translate ideas into viable strategies, aligning design intent with manufacturing constraints, cost structures, and market positioning.

Our advisory approach is grounded in:

- long-term thinking rather than short-term solutions,
- transparency rather than assumptions,
- experience rather than trends.

We share knowledge, insight, and direction while respecting the client's autonomy.

Final decisions remain where they belong - with those who manufacture, invest, and distribute.

Confidentiality, intellectual integrity, and trust are essential to our work.

SORATO advises with independence, responsibility, and discretion, ensuring that each project moves forward with coherence, efficiency, and purpose.

THE PLANTER

Sculpted form born from earth and fire. OXO Moleskin reveals a soft, tactile surface with mineral depth, while OTO is shaped from the famous Terra Forte clay, known for its strength and durability. Designed by Geert van Acker, these unique forms bring quiet power, balance, and timeless presence to outdoor spaces — created to endure, and to be unmistakably their own. As a natural counterpoint, GEUM Baskets introduce purity and softness — handwoven, uncoated, and entirely natural
